testlib.f95

Page 1/1

```
program testlib
integer n

interface
function dummy (n)
integer dummy
end

function gauss (n)
integer gauss
end

function negate(n)
integer negate
end

end interface

n = 5

print *, dummy(n)
print *, gauss(n) ! this does not return value to print
print *, negate(n)

print *, dummy(n)
print *, gauss(n) ! this does not return value to print
print *, negate(n)

end program testlib

! same code in 1 program file does work
! see do_gauss.f95
```
